Erratum: Model Accounting for the Effects of Pulling-Device Stiffness in the Analyses of Single-Molecule Force Measurements

Arijit Maitra and Gaurav Arya
(Received 16 November 2010; published 14 December 2010)

DOI: 10.1103/PhysRevLett.105.259902
PACS numbers: 82.37.Np, 87.15.ad, 99.10.Cd

The authors have found a typographical error. The sentence “Using a 10% tolerance for error, we obtain a more well-defined criterion $K \leq 0.1 \times 2/\beta x^2$.” on page 3, right-hand column should read “Using a 2.5% tolerance for error, we obtain a more well-defined criterion $K \leq 0.025 \times 2/\beta x^2$.” This correction does not affect the conclusions of the work.
